

1. ALU stands for? A. Arithmetic Logic Unit B. Array Logic Unit C. Advanced Logic Unit D. None
Ans: A
2. CPU means? A. Central Processing Unit B. Control Process Unit C. Central Print Unit D. None
Ans: A
3. Volatile memory? A. ROM B. RAM C. Disk D. SSD Ans: B
4. Fastest memory? A. Cache B. RAM C. HDD D. ROM Ans: A
5. Instruction cycle? A. Fetch Decode Execute B. Input Output C. Read Write D. None Ans: A
6. PC register stores? A. Data B. Next instruction address C. Result D. None Ans: B
7. Control Unit does? A. Manage operations B. Store data C. Calculate D. None Ans: A
8. Data Bus carries? A. Data B. Address C. Control D. None Ans: A
